Subject: DOCKET NO. SDWA-10-2013-0080 / Groundwater Monitoring Well Installation Activities - Wednesday, August 21, 2013 Update
Date: Thursday, August 22, 2013 6:03:22 PM

Rene,

On Wednesday, August 21, 2013, Cascade drilled YVD-06 to a total depth of 177 feet bgs. Lithology generally consisted of gravelly sand to 8 ft, sand to 13 ft, sandy gravel to 30 ft, sand to 50 ft, silt to 70 ft, sand to 90 ft, sandy gravel to 116 ft, silt to 150 ft and gravelly sand to 177 ft. Water was encountered at about 148 ft. Rods were tripped out and the borehole will sit overnight to recharge. A static water level will be gauged tomorrow and the well will be installed.

Please let me know if you have any questions.

Thank you

Tom
